INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference 030943PC/RG	FOR FURTHER ACTION	See Form PCT/IPEA/416			
International application No. PCT/AU2004/001107	International filing date (day/mon 19 August 2004	th/year) Priority date (day/month/year) 19 August 2003			
International Patent Classification (IPC) or	national classification and IPC				
Int. Cl. 7 B62D 24/04, B60G 13/10					
Applicant TRAMANCO PTY LTD et al					
1. This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36.					
2. This REPORT consists of a total of 3	sheets, including this cover sheet.	·			
3. This report is also accompanied by ANN	EXES, comprising:				
a. (sent to the applicant and to the	International Bureau) a total of	sheets, as follows:			
sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).					
sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box.					
b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)), containing a sequence listing and/or table related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).					
4. This report contains indications relating	to the following items:				
X Box No. I Basis of the report	,	·			
Box No. II Priority	•				
Box No. III Non-establishmen	t of opinion with regard to novelty,	, inventive step and industrial applicability			
Box No. IV Lack of unity of in	evention	·			
Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement					
Box No. VI Certain documents	Box No. VI Certain documents cited				
Box No. VII Certain defects in the international application					
Box No. VIII Certain observations on the international application					
Date of submission of the demand	Date of con	pletion of the report			
14 March 2005	2 August 2	2 August 2005			
Name and mailing address of the IPEA/AU	Authorized C	Authorized Officer

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/AU2004/001107

Bo		of the report				
1.	With regard to the language, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.					
	This report is based on translations from the original language into the following language , which is the language of a translation furnished for the purposes of:					
	international search (under Rules 12.3 and 23.1 (b))					
	publication of the international application (under Rule 12.4)					
	internat	ional prelimi	nary examination (under Rules 55.2 and/or 55.3)			
2.	2. With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):					
	X the internation	al applicatio	n as originally filed/furnished			
	the description	ı:				
		pages	as originally filed/furnished			
		pages*	received by this Authority on with the letter of			
	the claims:	pages*	received by this Authority on with the letter of			
1	the claims.	magas	as originally filed/furnished			
		pages pages*	as amended (together with any statement) under Article 19			
Ì		pages*	received by this Authority on with the letter of			
1		pages*	received by this Authority on with the letter of			
l	the drawings:					
l .		pages	as originally filed/furnished			
	•	pages*	received by this Authority on with the letter of			
		pages*	received by this Authority on with the letter of			
	a sequence list	ing and/or a	ny related table(s) - see Supplemental Box Relating to Sequence Listing.			
3.	The amendmen	nts have resu	lted in the cancellation of:			
	the de	scription, pa	ges			
	the cla	aims, Nos.

	any ta	ble(s) related	t to the sequence listing (specify):			
4.	4. This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).					
	the description, pages					
	the claims, Nos.					
	the drawings, sheets/figs					
	the sequence listing (specify):					
	any table(s) related to the sequence listing (specify):					
•	If item 4 applies, son	* If item 4 applies, some or all of those sheets may be marked "superseded."				

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/AU2004/001107

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

_			
Γ	1. Statement		
	Novelty (N)	Claims 1-23	YES
		Claims	NO
	Inventive step (IS)	Claims 1-23	YES
		Claims	NO
	Industrial applicability (IA)	Claims 1-23	YES
L		Claims	NO

2. Citations and explanations (Rule 70.7)

Claims 1-23 meet the criteria set forth in PCT Article 33 for novelty, inventive step and industrial applicability. The prior art published before the priority date does not disclose determining the performance of a vehicle suspension system by measuring the dynamic effect of an impulsive load and deriving one or more suspension parameters from the measurement.

The closest prior art is considered to be ZA 9301540. This document discloses a load measuring system which measures the mass of a load carried by a vehicle. However, there is no disclosure of measuring the <u>dynamic</u> effect of an <u>impulsive</u> load.
